

Best of Class

APS specializes in dealing with professional accounting firms and understands how to integrate a document management solution to the practice management system in use by these firms.

APS is an implementation business partner for Interwoven in the UK, Australia and New Zealand focusing on the document and email management needs of leading accounting firms such as:-

- PKF
- Menzies Corporate Recovery
- Tait Walker
- Pitcher Partners
- WHK Greenwoods
- Scrutton Bland
- Bentley's MRI
- Robertshaw Myers
- Robert J Hart
- Myers Clark
- HLB Mann Judd

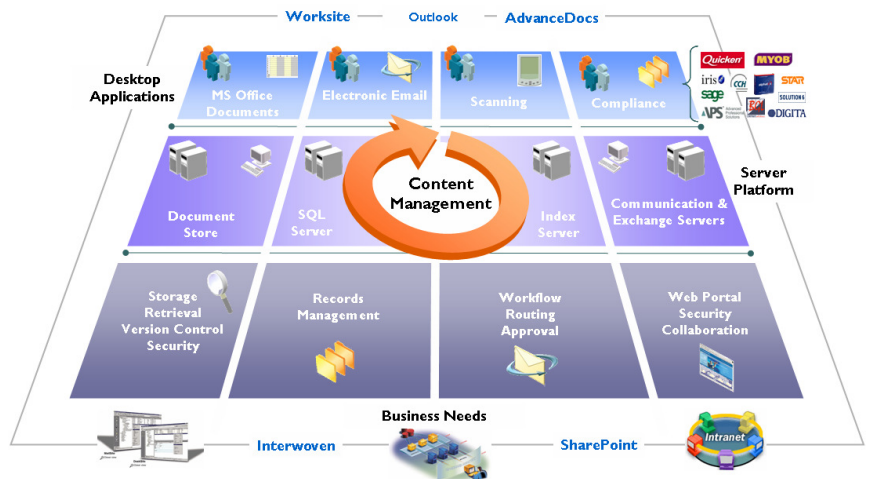

APS enhances the Worksite solution from Interwoven in five key areas:-

The APS Workspace Generator is unique to APS and ensures that a multiple level approach is implemented for client workspaces and folders. The Workspace Generator is an automatic service that's

responds to changes to client and matter records within the practice management system obviating the need for the internal IT function to schedule regular manual updates to the DM solution.

collated and organised into a combined PDF prior to any save or email function.

AdvanceDocs also ensure that a standard policy is maintained for security on all PDF's regardless of where the content

AdvanceDocs is unique to APS and ensures that content created by compliance solutions from any supplier can be captured and stored into the DM solution in a consistent, seamless and easy to use and enables professional staff to modify, annotate, and redact content published as a PDF document.

originated from.

Best Practice - As part of the email process described above AdvanceDocs also ensures that content attached to an email that is not a PDF is converted to this format and reattached to the email before the email leaves the email server.

The AdvanceDocs desktop application also serves as an 'inbox' where content from a variety of sources can be
