

QuickBooks Online Makes Huge Impact on Australia / New Zealand Market

Many accounting firms in Australia and New Zealand are discovering the power of utilising the new QuickBooks Online product in collaboration with their clients. Having the ability to interact with your clients on a daily basis can be a very profitable practice.

QuickBooks Online gives all accounting firms the ability to monitor and work with their client's company data files in real time. This will give you the ability to make suggestions and add consulting time to your revenue base. Being able to work with your clients' data files regularly means that you can have control over what they entering into their system and this will also regulate and streamline their processes as well as your own. This in turn means that you can effectively still charge the same as always but it will take you less time to complete the work.

With QuickBooks Online, the need for your clients to copy and send their files to you is eliminated. What's more, you will no longer need to have every version of QuickBooks loaded on your machine so that you can work with their files. You will all be working in the most up to date version at all times.

QBi Online is more cost effective as well. Unlike our competitors, we offer a one-off annual subscription for our flagship product, QuickBooks Enterprise, at almost 50% less than our desktop version.

Together with the robust and reliable QuickBooks software, we have two state of the art data centres which we have spent millions of dollars developing - so that you will always have access to your data, 24/7. This also means that your data is backed up instantly in two locations so that, no matter what may occur, you can rest assured that your data is safe. You also have the ability to take a local back-up if you wish.

QuickBooks Online – the way of the future.

If you would like to find out more information on how your firm can harness the power of the world's best selling software, **ONLINE**, then please don't hesitate to contact Greg Deacon on +61 2 9965 1300 and he will be happy to answer all of your questions.
